

18 October 1982

MEMORANDUM FOR:

25X1

FROM:

DCI

SUBJECT:

Remarks for Third World Seminar

1. Would you draft some remarks for me to make at 9:00 on Thursday morning to the Third World Seminar. The seminar is being conducted by the Intelligence Producers Council at the State Department. I would like to touch on the pressures under which already weak Third World countries operate, the lag in our security assistance, the Soviet methods of influencing, i.e., proxies, military assistance, insurgencies, subversion, the failure of Soviet economic assistance, the need and opportunity for US private investment and presence.

2. Here is a new product which has a lot of material. I'd also like to see the present draft of the Third World estimate before I make this talk.

William J. Casey
